ABOUT ME

Full-Stack Developer with extensive experience building production-grade web platforms and AI-powered digital products. Experienced in developing end-to-end applications, integrating AI capabilities into real-world workflows, and building platforms powered by both external and self-hosted Large Language Models. Currently focused on AI-enabled product development, intelligent automation, social media intelligence, data-driven platforms, and reusable AI services. Combines strong full-stack engineering fundamentals with practical AI integration to transform complex business requirements into scalable, intuitive, and impactful digital products.

AREA OF EXPERTISE

Scalable Full-Stack Development	AI & LLM Integration	AI-Powered Product Engineerin
System Architecture & API Integration	Data Analytics & Visualization	Automation & Intelligent Workflows

TECH STACK

Languages & Frameworks: TypeScript, JavaScript, Python, PHP, Node.js, Next.js, Vue.js, Nuxt.js, Angular, Laravel

AI & LLM : vLLM, Ollama, OpenAI, Vertex AI, OpenRouter, Grok

Databases : PostgreSQL, MySQL, SQLite

Testing & Tools : Cypress, Mocha/Chai, Git, Linux Server

PROFESSIONAL EXPERIENCE

Full-stack Developer | Mediawave **Apr 2023 - Present**

- Build and maintain AI-powered web applications across internal systems, client solutions, and commercial products, handling the full cycle from feature development and API integration to troubleshooting and performance improvements.
- Designed and developed an AI-powered Asset Management System using Next.js, PostgreSQL, MinIO, and self-hosted LLMs (Qwen, DeepSeek) served through vLLM.
- Developed a confidential Social Media Intelligence platform for a government client to monitor and analyze social media conversations and surface insights on organizations, topics, and emerging issues.
- Contribute to an internal AI Gateway that provides centralized AI capabilities and APIs for the MWX product ecosystem, and continuously enhance its AI-powered products for MSME/SME users.
- Collaborate with product, UI/UX, backend, AI, and business teams to turn business requirements into scalable, practical AI-enabled features.

Frontend Developer | Indocyber Global Teknologi **Sep 2022 - Mar 2023**

- Worked on-site with Roojai Indonesia to develop insurance-related frontend applications using Vue.js.
- Collaborated with Product, UI/UX, and engineering team members on application development and enhancements.
- Implemented features from business requirements and supported testing, troubleshooting, and debugging.

Frontend Developer | Mindhive **May 2021 - Sep 2022**

- Developed Vue.js frontend applications using TypeScript and collaborated with backend engineers on service integration.
- Ensured cross-browser and cross-platform compatibility and alignment with W3C web standards.
- Created automated UI tests using Cypress and supported bug fixing and product improvements.

Frontend Developer | Fintax **Mar 2020 - May 2021**

- Developed single-page applications using Vue.js for tax reporting products.
- Collaborated with Product, UI/UX, and engineering teams on feature development and application enhancements.
- Created unit tests using Mocha and Chai and ensured cross-browser compatibility.

Web Developer | Trans Media Sosial **Jun 2018 - Mar 2020**

- Developed web applications using Laravel, WordPress, Vue.js, JavaScript, and related frontend technologies.
- Built backend services, RESTful APIs, web services, MySQL queries, stored procedures, triggers, tables, and views.
- Troubleshot issues across Development, Test, and Production environments and supported Linux server deployment.
- Collaborated with Product, UI/UX, and engineering teams on application development and enhancements.

Frontend Developer | Mediawave **Jun 2017 - Jun 2018**

- Developed frontend and web application features using Laravel, Gatsby, jQuery, JavaScript, and CSS.
- Collaborated with backend engineers, web developers, and UI/UX.
- Supported users through change control and system updates while maintaining standards-compliant web delivery.

EDUCATION

Bachelor of Informatics Engineering **Aug 2010 - Oct 2016**

Universitas Komputer Indonesia (UNIKOM
